Annual Update of Filing Fees

(January 24, 2022)

The Federal Energy Regulatory Commission (Commission) is issuing this document to update filing fees that the Commission assesses for specific services and benefits provided to identifiable beneficiaries. Pursuant to 18 CFR 381.104, the Commission is establishing updated fees on the basis of the Commission's Fiscal Year 2021 costs. The adjusted fees announced in this document are effective March 4, 2022. The Commission has determined, with the concurrence of the Administrator of the Office of Information and Regulatory Affairs of the Office of Management and Budget, that this final rule is not a major rule within the meaning of section 251 of Subtitle E of Small Business Regulatory Enforcement Fairness Act, 5 U.S.C. 804(2). The Commission is submitting this final rule to both houses of the United States Congress and to the Comptroller General of the United States.

RIN 1625–AC52

Operational Risk Assessments for Waterfront Facilities Handling Liquefied Natural Gas as Fuel, and Updates to Industry Standards

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard issues this final rule amending its regulations concerning waterfront facilities handling liquefied natural gas (LNG) and liquefied hazardous gas (LHG). The final rule makes the following three changes. First, the final rule revises the Coast Guard’s existing regulations to allow waterfront facilities handling LNG as fuel to conduct an operational risk assessment instead of a waterway suitability assessment (WSA) without first obtaining Captain of the Port (COTP) approval. Second, the final rule revises existing regulations to update incorporated technical standards to reflect the most recent published editions. These updated industry standards only apply to waterfront facilities handling LNG and LHG that are constructed, expanded, or modified under a contract awarded after the implementation date of the final rule. Third, for waterfront facilities handling LNG that must comply with the WSA requirements, the final rule requires these facilities to provide information to the Coast Guard regarding the nation of registry for vessels transporting natural gas that are reasonably anticipated to be servicing the facilities, and the nationality or citizenship of officers and crew serving on board those vessels.

DATES: This final rule is effective March 4, 2022. The incorporation by reference of certain publications listed in the rule is approved by the Director of the Federal Register on March 4, 2022.
